

# Whenever You Come Around

**A**                      **D**  
The face of an angel, pretty eyes that shine

**A**                      **E**  
I lie awake at night wishing you were mine

**A**                      **D**  
I'm standin' here holding the biggest heartache in town

**F#m**                      **E**   **A**  
Whenever you come around

**D**                                      **A**  
I get weak in the knees and I lose my breath

**Bm7/E**                                      **E**                                      **A**  
Oh I try to speak but the words won't come I'm so scared to death

**D**    **F#m** **E** **D**  
And when you smile that smile, the world turns upside down

**A**                      **E**   **A**  
Whenever you come around

**A**                      **D**  
I feel so helpless I feel just like a kid

**A**                                      **E**  
What is it about you that makes me keep my feelings hid

**A**                                      **D**  
I wish I could tell you, but the words can't be found
